

AMANDA HAVENS | SOFTWARE ENGINEER

Independence, KY | 859-638-1202 | ahavens.dev@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

SUMMARY

Highly motivated full-stack software engineer with foundational knowledge in front-end and back-end programming, obtained through an intensive software engineering bootcamp. Possessing five years of experience in data analysis, I aim to leverage practiced analytical and technical skills in an entry-level software development role. Seeking opportunities in an environment that challenges growth while fostering professional advancement.

TECHNICAL SKILLS

Frontend: JavaScript, React, HTML, CSS, and frameworks like Bootstrap

Backend: Node.js, Express, PostgreSQL, Knex, DBeaver

Tools: Mocha, Chai, Git, GitHub, and Visual Studio Code

SOFT SKILLS

- Critical Thinking
- Leadership
- Adaptability
- Oral/Written Communication
- Time Management
- Decision Making
- Teamwork
- Motivated & Ambitious
- Prioritization

EXPERIENCE

5/3 Bank

Cincinnati, OH

Cash Vault Analyst

04/2019 - 12/2023

- Accomplished substantial bank-wide savings, evidenced by a significant reduction of over \$600 million in excess inventory as measured by forecasting systems as of November 2023.
- Collaborated with 200+ vendor vaults and the Federal Reserve, managing daily currency deposits and orders up to \$850K.
- Utilized forecasting tools to analyze past trends and ensure accurate stocking levels for all vendor locations.

Commercial Support Specialist

10/2017 - 04/2019

- In a call center setting, assisted commercial customers in troubleshooting issues regarding the commercial website.
- Received high marks on all reviews and pulled calls.
- Mastered all skills needed to provide assistance, and was also part of a test group for expansion of product assistance.

EDUCATION

Chegg Skills

Remote

Certificate, Software Engineering

02/2024

- Completed a six-month program focused on industry best practices and standards in software development.
- Worked under the guidance of a senior software engineer in a mentor-student relationship.
- Developed several hands-on role-based projects and scenario-based challenges simulating real-world tasks.
- As part of the program, produced professional projects from concept to completion, including:
 - **Recipe Tracker App** | [Link](#)
 - Developed an application allowing users to collect, organize, and add recipes, including images.
 - Technologies: JavaScript ES6, Bootstrap, HTML5.
 - **Flashcard App** | [Link](#)
 - Engineered an application for users to create, study, and delete flashcards.
 - Implemented scalable JavaScript functions for library expansion without code refactoring.
 - Technologies: JavaScript ES6, Bootstrap, HTML5, React.
 - **WeLoveMovies** | [Link](#)
 - Designed an application that finds reviews of movies in theaters.
 - Demonstrates ability to build an API and create a connection with a database
 - Technologies: Knex, Render, PostgreSQL, DBeaver
